## DEATH FOLLOWS

## THE CORONATION

## SHOOTING AFFRAY

Coronation, Sept. 29.—Frank White-  
side, M.L.A., died this evening at  
6.30, after a hard battle for life,  
which began when he was shot down  
last Sunday night by Thomas Helm-  
holt. The prisoner was not placed  
on trial today, as was expected but  
instead was sent to Fort Saskat-  
chevan. He will come up for trial  
next Friday. No change has been  
made in the charge laid against him  
and whether or not a charge of  
murder will be laid has not yet been  
decided.

The police have the ante mortem  
statement in their possession, with  
certain letters which will figure lar-  
gely in the trial sent by Mrs. Helm-  
holt to Frank Whiteside when at  
camp in Calgary.

The ante mortem statement is not  
very long and describes the shoot-  
ing and what led to it. On Sunday  
night last Helmholt called up White-  
side, who had come to Coronation  
from Sarcee Camp, and asked him  
to come to the telephone exchange  
block by Helmholt and his wife.  
Helmholt then confronted Whiteside  
with certain letters sent by Mrs.  
Helmholt to Whiteside, and asked  
for some statement. The argument  
was brief. Whiteside asserted that  
the letters revealed no wrong doing.  
What led directly up to the shoot-  
ing has not yet been divulged. The  
police are giving very little infor-  
mation until the case comes to trial.

Mrs. Whiteside was not present  
during the shooting.  
The letters which were intercepted,  
while revealing no serious wrong-  
doing, are described by one who has  
seen them as unusual for a married  
woman to send to a married man  
who is not her husband.

The story told here is that Helm-

bolt, while handing some letters to  
Sergt. Whiteside at the camp, notice  
one in the handwriting of his wife,  
which, that later he succeeded in se-  
curing this and other letters, which  
will appear as evidence in the trial,  
and which are now in the hands of  
the police.

Whiteside was held in very high  
regard in this riding. Mrs. White-  
side and Mrs. Helmholt have been  
very close friends for some consid-  
erable time, and Helmholt was election  
agent for Whiteside at the last elec-  
tion.

Whiteside was born at Ottawa in  
1873. He came west in early life,  
and homesteaded near Red Deer in  
1894. He located in Coronation a  
few years ago, and besides ranching  
went into the newspaper business,  
starting the Coronation Review and  
Crest Advance. He leaves a wife  
and four children.

Innisfail, Oct. 2.—The streets of In-  
nisfail were thronged today with nei-  
ghbors and friends of the late Sergt.  
Frank Whiteside, with Hartswood, M.  
P.P. for Coronation, whose remains  
were laid to rest with others of his  
family in the "Innisfail cemetery." The  
party arrived from the north on the  
noon train, and was met at the de-  
pot by a firing party from Sergt.  
Hall and the Innisfail platoon of the  
deceased's regiment. A large number  
of his comrades came on the train,  
and altogether some 250 members of  
the battalion were present under Cap-  
tain Merce of "D" Company.

The provincial band was represented  
by the premier and Hon. Chas.  
Stewart. The band started with the  
Colonial Jack, "was twice by twelve  
sergeants, and was covered with  
wreaths of flowers sent by H. N. A.  
L. Efton, the Innisfail judge and  
others. An impressive service was  
read by the chaplain, and after three  
volleys had been fired, and the bug-  
le sounded the "Last Post" another  
volley of rifles was fired and the  
Innisfail old timer was left to  
his eternal rest.

## THE SONG OF THE LAZY

## FARMER WHEN ITS HOT

You ought to see my neighbor hop  
to get his third alfalfa crop inside  
the barn before it rains and spoils  
the seed for all his pains. Before he  
saw his corn all in, that fellow start-  
ed to begin to get the first crop stow-  
ed away. He spends his life making  
hay. Before he got his corn laid in  
the second crop was most knee-high,  
he had to pitch hay in the sun be-  
fore he got his corn plowing done.  
Now that it's fall and time to rest,

he's got a third crop of that pest,  
he'll burn his neck and strain his  
back to get the blazed stuff in the  
stack.

I've got a better scheme, by gee,  
if I sit and rest, beneath the tree, when  
it's a hundred in the shade, the sight  
of work makes me afraid. My blue-  
grass is all burned up now, there  
ain't no clover in the mow, the cows  
are loving for some grass, and Jane  
Mirandy says "Aha, if this keeps on  
these cows will fall to wet the bot-  
tom of the pail." A thing like that  
don't worry me, the milking's easier  
by gee. The less they give, the bet-  
ter 'tis, for its too hot to milk, gee  
whis, I wouldn't work away a d  
sweat for all the milk that neighbor  
gets by feeding his alfalfa hay, or  
cutting fodder day by day. I'll save  
some labor like that man; I'd rather sit  
and smoke and fan!

## Methodist Church

Sunday, Oct. 15th.

11 a.m. "The Principle of the  
Spiritual Harvest."  
7:30 p.m. Mrs. Magrath, of Ed-  
monton, will give an address on  
woman's work in connection with  
the Missionary department of our  
church. Mrs. Magrath is the Pro-  
vincial Organizer of W. M. S. of  
the Alberta Conference of the Metho-  
dist Church and is a pleasant and  
convincing speaker.

## Presbytery Meeting

A meeting of this Presbytery was  
held at Ponoka on Tuesday last.  
Eight members from Ponoka and  
present.

Mr. A. G. Kirkpatrick, recently  
licensed, was ordained on his ap-  
pointment to Provost.

The union of the Presbyterian and  
Methodist congregations in Ponoka,  
under the co-operation scheme, was  
agreed to.

Mr. Samuel's resignation of Ponoka  
congregation, was respectfully ac-  
cepted.

The next meeting was left to the  
call of the moderator and clerk.

## NEIGHBORHOOD WORDS

My neighbor keeps a lot of bees,  
which much annoys me, for when  
I sit beneath the trees, they come  
along and sting me. Another  
neighbor keeps a hen, the which I  
like to hammer all night. I shake  
the welkin up with most disgusting  
clatter; and when I try to do a bit  
of ground that many bow-wow gets  
a fit, its noisy virgins keeping. And  
still I have a neighbor who owns  
a short-horn rooster, and one may  
hear its strident tones from Waboo  
road to Wooster. And when the  
pup, whose music drows, the rooster  
springs a lot of noise about a mil-  
lion barrels. Between the rooster  
and the hen, the concerts dog and  
cat, my mind is bugging at the  
knees-I fear I'm going batty. The  
life we live would be less raw and a  
peace would ensue our labors, if our  
gross would produce a law abolishing  
all neighbors.—Walt Mason.

## NEW HOMESTEADS IN B. C.

Prince George, Sept. 26.—Monday,  
October 9, is the date given by the  
British Columbia Government for  
throwing open for settlement the  
separate tracts of land in central  
British Columbia, containing a total  
of four hundred homesteads of 160  
acres each. Up to the present these  
lands have been reserved by the British  
Columbia government, but the  
progress of settlement in the recent  
months has been so rapid as to make  
it desirable to throw additional areas  
of land open for settlement. Appli-  
cations for the land have to be made  
through the office of the British Col-  
umbia government agent at Fort  
Fraser, where most of the land in  
question is situated.  
One series of townships lies along  
the north side of the Nechako river,  
about eight miles east of Fort Fraser,  
while the other block lies on the west  
side of Stuart river near its  
junction with the Nechako river. The  
lands have been under reserve since  
1911 and the progress of the settle-  
ment has naturally justified a change  
in policy in that time.

Ottawa, Sept. 29.—An order-in-coun-  
cil has been passed authorizing the  
holding of auction sales of school  
lands this autumn at Kamasky, Big-  
gar and Elaine Lake, Sask., and at  
Provost, Selkirk, and Chimoit in  
Alberta. The lands will be inspected  
before the sales and will be offered

## RUN-DOWN WOMAN

Made Strong By Your Vinol  
Fort Edward, N. Y.—"I was in a run-  
down, nervous and weak condition, so  
I could not do the housework for my  
family of three. I had taken cod liver  
oil emulsions and other remedies with-  
out benefit. A friend told me about  
Vinol. I tried it and it soon built up my  
strength and made me a well woman so  
I now do all of my housework."—Mrs.  
Dorcas Gilmere.  
We guarantee Vinol to restore  
strength and build up run-down, weak  
and debilitated conditions.

at such upset prices as will save  
guard the interests of the school  
lands endowment fund.

## Town Topics

Pte. F. A. Johnson, son of Mr. and  
Mrs. L. O. Johnson of this City, is re-  
ported to be taken down with shell  
shock and is at present in the hospital  
at Cambridge, Eng., where it is  
hoped he will soon recover.

Christopher's Store—Just received  
another fresh shipment of G. B.  
Chocolates.

Alf. Meggs, monoline operator at  
the office for the past two years, left  
for Calgary Thursday morning to join  
the 194th Battalion for overseas ser-  
vice. The operator that was to take  
Mr. Meggs place failed to put in an  
appearance which accounts for the  
lateness of this issue.

## HOW TO DRINK MILK

Sip milk slowly. Take four min-  
utes at least to finish one tumblerful  
and take only a good teaspoonful at  
one sip. To it is the ideal way to  
drink milk. When milk finds its way  
into the stomach it is instantly curd-  
led. If you drink a large quantity  
at once it is curdled into one mass,  
only on the outside of which can the  
juices of the stomach work.

If you drink in little sips, each is  
curdled up by itself, and the whole  
finally finds itself in a loose  
lump, made up of little lumps, upon  
which the stomach's juices may act  
readily. Many people who like milk  
and know it is good for them, never-  
theless, think they cannot use it be-  
cause it gives them indigestion. Most  
of them could use it freely if they  
could drink it in the manner sug-  
gested.

It is good news when you learn  
that you can buy the article you  
need at a little less than you had  
thought it necessary to pay. The  
store ads. nearly always bring you  
news of that sort.

## DIARRHOEA

Was Caused By  
Change of Diet, Etc.

Diarrhoea arises from many causes  
such as, change of diet, change of water,  
change of climate, catching cold, the  
eating of unripe fruits, or anything that  
will cause or induce an excess of bile.  
On the first sign of any looseness of the  
bowels it should not be neglected, but  
should be looked after immediately, for  
if not diarrhoea, dysentery or some other  
serious bowel complaint may ensue.

Mr. Geo. Smith, Victoria, B.C. writes:  
"It is five years ago since I first tried  
Dr. Fowler's Extract of Wild Strawberry.  
I was then on a timber survey, and suf-  
fered greatly from diarrhoea, caused by  
change of diet, etc. A friend in the  
party gave me a few doses which gave  
me great relief. Since then I have been  
in survey work, and would as soon think  
of starting out on a trip without my  
compass and theodolite as without my  
supply of Dr. Fowler's Extract of Wild  
Strawberry, which I consider the wood-  
man's best friend."

Dr. Fowler's Extract of Wild Straw-  
berry has been on the market for the  
past seventy years, and is universally  
known as a positive cure for all complaints  
arising from any looseness of the bowels.  
When you ask for "Dr. Fowler's" be  
sure you receive what is asked for, as  
there are many rank imitations of this  
sterling remedy placed on the market to  
try and fool the unsuspecting public.  
The genuine is manufactured by The  
F. M. Lumber Co., Limited, Toronto, Ont.  
Price, 35 cents.

E.C.D. Prints, 4th Prize.  
E.C.D. 56's Solids, 6th Prize.

For the past few years, the Edmonton City Dairy have flooded their patrons with circulars, letters etc., urging upon them the necessity of producing and shipping a better quality of cream in order that a butter might be manufactured of such keeping quality that it could be put into storage and when taken out would successfully compete with the New Zealand and Australian butter in British Columbia markets in the West, and with Eastern Townships' Butter in the East.

For the past two seasons the Company has followed the "Payment on Grading System" as advocated by the Dairy Commissioner of Alberta, thus paying the patron who shipped a Superior Quality of Cream an extra price for his extra efforts put forth to produce it. And in return the Company has been able to realize better returns for the finer quality of butter produced as the government has worked out a very successful system of official butter grading in accordance with the grades of cream mentioned which has been a great factor in establishing a reputation for Alberta Butter in outside markets.

The patrons have been quick to realize the advantage of the system and hundreds of them have given close attention to cleaner and better cows, stables, separators and milking utensils. Many have provided themselves with proper cooling apparatus and practically all are cooling their cream immediately it is separated to a temperature of between forty and fifty degrees, thus preventing the growth of injurious bacteria. The majority of the patrons no longer guess at the temperature—they have purchased a thermometer and are using it.

The Edmonton City Dairy have also realized the importance of "Keeping on the Job." Men have been sent to study the individual of the different markets, and when the butter is to be sent to a certain market, it is manufactured to meet the requirements of that particular market in every respect.

Men have been sent to many of the largest butter plants in both Canada and the United States, to study their methods, systems and apparatus and no expense has been spared by this Company to adopt or install any such system that would tend to better the quality or advance the Dairy Industry in Alberta.

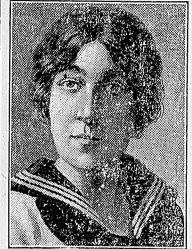

The past season, eight churning plants have been opened and operated at different points outside of Edmonton. All of these have been fitted with Pasteurizing apparatus and the results have been very satisfactory as is proven by the medals placed on the butter by the Government.

All churning is accredited by the Government Official and the butter is sold to the outside markets according to their Official Score. Very little Australian and New Zealand butter has entered British Columbia this year. Alberta butter has given satisfaction and the other will not enter as long as Alberta keeps up the Quality. The Dairy Industry is increasing rapidly, however, and the next market should be across the Water. The Edmonton City Dairy is already studying the conditions of those markets, educating its men, and equipping its various plants to meet these requirements. Knowing that the entering wedge must be Quality, this Company is uniting in its efforts to put this matter squarely before its patrons.

Encouraged by the prompt intelligent response they have received from their patrons the past few years, they have no question but what there will be a steady advance in quality of cream produced and that "Alberta Butter" will obtain a reputation which will create a ready demand for it in any market of the World to which it is directed.

## THE CHIEF CHARM OF LOVELY WOMAN

Soft, Clear, Smooth Skin Comes With  
The Use Of "FRUIT-A-LIVES".

NORAH WATSON  
86 Drayton Ave., Toronto.

A beautiful complexion is a handsome woman's chief glory and the envy of her less fortunate rivals. Yet a soft, clear skin—glowing with health—is only the natural result of pure blood.

"I was troubled for a considerable time with a very unpleasant, disfiguring rash, which covered my face and for which I used applications and remedies without relief. After using 'Fruit-A-Lives' for one week, the rash is completely gone. I am deeply thankful for the relief and in the future, I will not be without 'Fruit-A-Lives'."

NORAH WATSON.  
50c. a box, 6 for \$2.50, trial size, 25c.  
At dealers or sent postpaid on receipt of price by Fruit-A-Lives Limited, Ottawa.

#### SONG FOR 'THE 151ST'

We will not, cannot brook longer,  
This ruthless slaughtering, of men,  
And children crying with longer,  
Because of one man's greed of gain.  
But bloodier yet will the field be,  
Till, 'twill quench his insatiable thirst,  
And there will be glory at last, for  
The boys.

Of the "Hundred and Fifty-First."  
Chorus:  
For we won't be trampled under,  
Not a single one!  
We will make the Kaiser pay for,  
All that he has done!  
And all the world will know,  
When the fight is won,  
That there are some gallant boys  
In the "One Five One."

We hoped that warring was over,  
That cannon belonged to the past,  
That Zeppelins never would thunder,  
Where God meant the eagle to pass.  
We have righteous peace and keep it,  
As long as we honestly may,  
But when the foe tread on us, 'twill  
betide them.

For they surely will rue the day,  
Chorus:  
Oh, into the thick of the fight,  
We're straining each moment to go,  
As Bill's match, his plan to land,  
With those of his servitor, lo!  
When their air castles lie in ruins,  
And their subjects from bondage  
have burst,  
Then we'll come back home,—those  
who are left of us,  
Of the "Hundred and Fifty-First."

#### AGRICULTURE SCHOOL OPENS OCTOBER 31.

Up to date fifty boys and thirty girls have registered for the first year in the school of agriculture at Olds. This, together with those who will return for a second year will bring the registration up to considerably over the hundred mark.

A striking feature of this year's registration is the large percentage of girls who are entering for the Household Science Course, as we are likely to have in the neighborhood of between sixty and seventy girls. The courses both in agriculture and Household Science are entirely free, there being no fees whatever in connection with the school. Students are asked to deposit \$5 to cover the equipment of tools, etc., that is given them to work with, but in the spring, if the tools are turned back without anything broken or lost, the caution money is returned to the students again. Hence, the only expense is for board and room which may be secured at from \$4.50 to \$5.50 per week. This, of course, includes both board and room.

For students who are required to stay at home to do the farm work this gives a splendid opportunity to secure a little additional information regarding agricultural work at a time of the year when there is little doing on the farm at practically no expense whatever, except for actual living expenses.

We shall be pleased to receive applications from all the boys and girls in this district who wish to put in a winter at considerable profit to themselves. Applications may be sent to W. J. McKee, Principal, School of Agriculture, Olds.

#### HOW TO SEND PARCELS TO PRISONERS IN GERMANY

Many people, who would like nothing better than to send an occasional parcel to a captive Canadian lad with a little food and clothing to help along, do not do so because they do not know how to send it or what to send.

Now regulations issued by the government state that no newspapers nor magazines must be sent to prisoners of war, nor must any linen, canvas or canvas be used in wrapping parcels for German prison camps.

All parcels are to be accepted at the post office free of charge—no stamps—but the envelope must be left unsealed and the flap turned in so that the censor may read it. Nothing pertaining to the war or war conditions should be written—merely personal affairs, and nothing which would be rejected by a British or German censor.

A tin snail biscuit box, a strong corrugated paper box (not paste board) a thin wooden box or a strong box which will not dent easily if heavy parcels are thrown against it, is the best to use. It must be a box strong enough to stand a six weeks' or two months' journey to Germany. Too much care cannot be taken in properly packing, addressing and tying up parcels, when the articles are all in the box they must be compact, and not able to move, or they will force the side out of the box.

After the box is packed tie it up firmly with good strong cord, not a string. Then on the outside of that put strong plain paper—without any reading on it, and use several layers of strong cord in tying up the box as in rubbing with hummer of other parcels on the boat the cord is apt to wear through. No newspapers must be used in packing parcels. After the parcel is complete, string, paper and all, it must not weigh over ten and a half pounds, or the department at Ottawa will refuse to let it pass. Inside the box put your full name and address. From Mrs. —, street number and city, Canada, so that in case of trouble or non-delivery, the box will be returned to you. On the same sheet—a full size sheet of pad paper—write also a list of the contents. Outside write in ink on the places the man's address, and if possible on the same side of the parcel, the contents, the name of the sender of the parcel, and leave another space for pasting on the customs declaration.

Send condensed milk, tea (as even if the prisoners have money they cannot buy tea in Germany now), sugar, canned tomatoes, or dried meat, or bacon or ham, that has been well dried to stand a journey of that length of time. All the prisoners ask for meat. They get no seasoning in their food, so the following are welcome articles: pepper, salt, curry powder, mustard and such. Also syrup or honey which must be packed in tins or soldered in tins, or good strong glass jars—packed so that it will not run out as has been the case with so many people who did not realize that the lid works loose during the rubbing on the boat. Pickles, and if in glass, packed so they will not break. Are you fond of bread in which they can dip their bread. They get no butter, so that is always welcome, but see that it is fairly well salted to keep, and it must not be in tins, but in a sealed jar or receptacle which will prevent it running out as the heat is often great on the boat. Peanut butter, coffee, also any good nourishing biscuits which will not mould on route. Cake with not too much shortening, preferably fruit cake as it does not crumble as easily as cookies. They only get black bread, but bread will mould unless it is put in the oven and thoroughly dried out like toast.

Do not send breakfast foods, as a rule the men get too much soft food now. Do not send soup unless it is a good brand—they can get sufficient soup now—it is their chief diet.

What they need most is meat—they all ask for it. All canned preserves, if they are good. So many brands are all water and useless. No matches must be sent, there is a heavy fine or penalty. As a rule, prisoners do not want chocolates unless it is nourishing. In many cases the chocolates are improperly packed and have melted and spoiled the whole parcel. Butters of any kind, lard and gum are much appreciated by the prisoners. A cake of soap, cheap towel, handkerchief, toothbrush, safety pins, strong linen thread, and also good strong needles are all appreciated. Butters of any kind, lard and gum are much appreciated by the prisoners. A cake of soap, cheap towel, handkerchief, toothbrush, safety pins, strong linen thread, and also good strong needles are all appreciated.

Writing paper of any description they are obliged to write on regulation paper and envelopes. Everyone appears to want condensed milk, as they get absolutely no milk and there is no nourishment in condensed milk for them. Pork and beans and any such suitable things, also marmalade. One can use one's own judgment as to what is best and what contains the most nourishment.

# THE STAR STORE

Ready-to-Wear, 2nd House Furnishings,  
Millinery, Floor Dress Making

## HENS WILL HOUSED WILL LAY ALL WINTER

Possibly no subject in connection with poultry husbandry has been neglected more than that of poultry house construction, although few subjects are more important. The trouble is that most farmers have one of the old-fashioned hen houses, and the theft and is prevalent that it is a waste of money on new fangled ideas would be to put it mildly, an uncertain investment.

The fact remains, however, that a many of these old houses are entirely unsuited for the purpose for which they were intended and though fowls may live and lay in them, no hen can be expected to do her best in unsanitary and uncomfortable surroundings. Nor is there any necessity for this undesirable state of affairs to continue, since remodelling would occupy but little time, while the expense is merely nominal.

It is not the intention at the present time, to attempt to cover this important subject in its entirety, but merely to point out in a general way what to aim for, and what to avoid when remodeling an old hen house, or constructing a new one.

In the first place, as to size. In constructing a new house, it will be necessary to determine the size of the flock which it is intended to keep in the house accordingly. In the case of an old house, the process is to be necessarily reversed, and the size of the flock made to conform to that of the house. Above all this, don't overcrowd. It is well to allow four square feet of floor space for each bird is not by any means too much. In connection with overcrowding, "Safety First" is a good motto. Undoubtedly the best floor is a cement one. The old earth floor is excellent so long as it can be kept sweet, but this is very difficult of accomplishment, and moreover, when the time employed in removing it, and the earth and reeling, and when taken into account, it will be seen that the expense entailed would soon cover the expense of putting in a cement floor. Board floors are undesirable, as they are not so sanitary as cement, and besides, they furnish a hiding place for rats and other pests.

It is not always possible to select the best location for the house, the location is, of course, already selected. Wherever this is possible, however, it would be well to remember that a high and dry location, on a sandy soil, with a southern exposure would be most likely to ensure that your house would be dry and sanitary. In every case, the house should be so arranged as to admit the greatest amount of sunshine possible.

As to the rest of it, so much depends upon other local conditions, it is impossible to devise any one method of obtaining the end desired. It should be remembered, however, that what is principally necessary is adequate ventilation without draught. Formerly ventilation was sacrificed to warmth, the whole building being sealed up so closely that, as of course is inevitable in such cases, the birds had to breathe the same air with all its impurities, time and time again, to say nothing of the equally disastrous effect that the place became damp, and fowls kept in such a house all winter will surely suffer from roup, and other ailments while those more hardy birds which manage to avoid actual illness, will never do satisfactorily in the way of egg production.

If the house is deep enough to prevent snow from blowing in on the roosts, it is best, in the opinion of the writer, to leave the entire front out altogether and at all times. If, however, the house is not sufficiently deep for that, the next best contrivance is the curtain front. Ordinary cotton, or thin canvas, tacked across the open front, or where in other circumstances, the window should be all that is necessary.

If for any reason neither of these plans is practicable, adequate ventilation must be provided otherwise. A good large ventilator in the roof, the ceiling being packed with straw, to prevent a draught, the consequences of which will be almost as disastrous as no ventilation at all. To be healthy, vigorous, profit-earning hens, the birds must be kept in houses giving room for plenty of exercise, admitting plenty of sunshine, any amount of pure, fresh air, free from draughts, and dry. With proper feeding, and in such a house, the hens will take an everlasting delight in filling the egg-basket, although the temperature be below zero.

Bills were used in a series of ballots to settle affairs between Liberals and Conservatives in a Cuban province. The fight took place at a recently. Conservative rally and eighteen Conservatives and eight Liberals were wounded. Government troops were called out and a military supervisor appointed.

It is claimed that the liquor Act is not being properly enforced in the Peace River and other northern districts.

## Dr. Michael Clark, M. P., Will Speak Here Saturday

One of the most interesting patriotic meetings ever held in Wetaskiwin will take place in the Angus Theatre on Saturday, October 14, at 2 p.m., when Dr. Michael Clark, M. P., of Olds, and his son, recently in valiant home from the front, will be the principal speakers. Mr. John Blue, secretary of the North Alberta branch of the Canadian Patriotic Fund, will also address the meeting. This meeting has been arranged for by the executive of the Wetaskiwin branch of the Patriotic Fund as a preliminary to a general organization throughout the constituency for the purpose of raising \$4,500, the amount of our allotment for the present financial year of the Fund. Last year we were asked to raise \$8,000, which we succeeded in doing. At a meeting, and when so many of our city held the other evening it was resolved to raise half the amount in the city. The other half should be easily raised throughout the country districts, and it is to be made the apportionment just and equitable it is hoped there will be a large attendance from the country points to assist in allotting the various school districts the amounts each should contribute.

There may be a difference of opinion as to the way this money is to be raised but in a time like this when the very life of our nation is at stake, and when so many of our brave boys have laid down their lives for King and country we should sink all our differences and all heartily co-operate and do our little bit by contributing to the fund. What sacrifice does the giving of a few dollars amount to when we consider the sacrifices our noble soldiers are making on the battlefield? We are asked as a matter of honor to contribute our share in money. Let the appeal be not in vain.

He is a poor citizen, indeed, who, being able, refuses to respond to the appeal on behalf of the Fund, and thus assure to the families of our soldiers who may never see their loved one again, a comfortable and independent livelihood. There is no surer way to prevent conscription in this country than by meeting the requirements of the fund and thus enable married men to take over the places in the trenches, who otherwise would have to stay home and provide for their families.

In another column will be found a list of rural subscribers throughout the rural districts, together with the amount paid in by each up to October 1. The list should easily be four times as long. With your help it will be next year. Make it a point to attend the meeting.

## IN THE FALL

In the fall Tired Father's fancy gravely turns to thoughts of coal, and he sheds nine kinds of bray as he sizes up his bill. He has thirty-seven dollars—two of them are plugged with nine—and the outlook for the winter is extremely on the blink. And he hears the children clamor for a lot of winter dolls, and his wife makes requisition for some bacon and some spuds, and his lovely grown-up daughter wants a new hat, so he here—she must have a stylish bonnet and a costly set of furs, and the son will need some money as he studies for the last thirty-seven dollars won't take Father very far. Father has so many problems that his hair has fallen out, yet it's safe to bet a kopek on that patient, damnable scout. He will somehow buy the bacon, somehow he will buy the spuds, Susan Jane will have her sables, and the kids will have their dolls; there'll be coal to feed the furnace, there'll be comfort in the shack, while Tired Father fights his battle with eight stiches in his back.—Walt Mason.

## Had Weak Back and Kidneys. COULD HARDLY MOVE IN BED.

When the back becomes weak and starts to ache and pain it is a sure sign that the kidneys are not performing their functions properly.

On the first sign of backache Doan's Kidney Pills should be taken and soon kidney troubles prevented.

Mr. Francis McInnes, Woodbine, N.S., writes: "I deem it my duty to let you know the wonderful results I have received from the use of Doan's Kidney Pills. For a long time I had been suffering from weak back and kidneys. I used to suffer the most at night, and some times could hardly move in bed with the pain in my back. A friend advised me to give Doan's Kidney Pills a trial and I am glad I did for the pain in my kidneys is gone, my back is strong, and I can perform any hard labor and get my good night's sleep. I only used three boxes of the pills."

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25; at all dealers, or mailed direct on receipt of price by The F. J. Millburn Co., Limited, Toronto, Ont. When ordering direct specify "Doan's."

## Back Your Aim with Confidence

In Dominion—the only Canadian-made ammunition. When the one good shot of the trip arrives you will never know the disappointment of a misfire if you use Dominion Big Game Cartridges.

At that instant when the moose or deer appears the knowledge that a true aim is backed up by true ammunition helps mightily.

With Dominion 363 British Soft Point—or any of the other big "D" Cartridges—the sportsman is sure of ammunition with a real "hit and stop". No matter what big game you seek there is a Dominion Cartridge to stand by your aim and give you confidence.

Send for our attractive hanger "A Chip of the Old Block."

**Dominion Cartridge Co. Limited.**

789 Transportation Building, Montreal.

Wetaskiwin Dealers sell Dominion.

## WHO SHOULD ENLIST

As the war goes on and personal tragedies multiply among families or friends, demand grows greater for some form of government supervision and registration or control that will show the ordinary citizen his duty. This province, indeed, the entire Dominion, is full of men who are anxious to serve in the best way possible. There are other kinds of men, yet usually not young men. They hold in many cases positions of responsibility and trust. They have duties to the public welfare in civil life that are continually impressed upon them as reasons why they should not offer for service at the front. They are not reluctant to offer, but they owe a divided duty and do not know in which direction to turn. Even apart from the question of service at the front, they feel a desire for some form of public service which has not been opened to them and which they would eagerly undertake if offered.

There are other kinds of men, yet and women, who are looking for guidance in these days of stress and trial, looking for someone in authority to tell them what they should do to make themselves useful to their country—in what form, if any, they may offer themselves up for the country's good. There are others, again, young men, strong men, without responsibilities or heavy obligations, who have not offered simply because they have not thought deeply enough. One sees them on the streets, in public places and recreation grounds, and wonders how they feel when they go home at night and reach the hour in which everyone faces only himself. To these and others, an enrollment of some kind for national service, undertaken and controlled by the government, would be a godsend. More than two years have passed since Canada threw her fate upon the scale of war. The youth and middle-aged of the country have done nobly the ranks of volunteers. Surely by now the government might have organized a better and more equitable system of public service than that which suited us in the old days. Surely the government will not wait very much longer for the inauguration of some scheme by which the people may attain their highest usefulness in public service.—Ex.

JULIUS DAINE, Pres. J. P. GROSS, Vice-Pres.

## The World's Markets

Chicago, Oct. 3.—Highest prices yet this season were scored in the wheat market as a result of drought damage in the Argentine. The close was firm, 2 to 2 1/2¢ higher, with December at 15 1/2¢ and May at 15 1/2¢. Corn showed a net advance of 1/4¢ to 1 1/4¢, and oats of 1/4¢ to 1/4¢. Provisions showed a ranging from 35¢ decline to a rise of 2 1/2¢. Although heretofore the Argentine area was confined to the provinces in the north, the central part of the country was today reported to be suffering seriously from lack of rain. Indeed, the fact seemed to be that the crop situation had become critical throughout more than half the growing region of Argentina with losses continually expanding. Under such circumstances, buying here was stimulated from the onset and despite heavy sales to realize profit the market maintained the greater part of the advance that took place, Kansas City advising telling of probable lessening of receipts in the southwest tending somewhat to help strengthen bulls.

Late firmness in the wheat market here was aided more or less by an estimate from a leading expert that the total domestic crop was eight million bushels short of what the government reported a month ago. The trade virtually ignored figures which, is taken at face value, will show an increase of 13 million bushels in the world's available supply. Corn ascended with wheat. Cattle reflected the strength of other cereals. European bids were close to the market.

## MULHURST

What time did Sunday School open at Spanghild? Did the equiptal sales have anything to do with it?

The Springfield pupils are beginning to practice for their Christmas program. So far they have made fair progress. The Misses Snowball are also taking part.

The district regrets to learn that two well-known families are moving back to their homelands. These are H. Meurer and L. Stevenson.

Miss B. Mulligan, who has been visiting her uncle, Mr. Geo. Mulligan, has returned to her home near Lethbridge.

Miss Ruth Mulligan went as far as Milet, and will spend a few weeks there and at Leduc.

The snow which fell on Sunday evening must have been a punishment for those who were absent from Sunday school, although those who were there had to suffer also.

Mr. H. L. Gaves went across the lake on Thursday last to get some lumber, but the cylinder of his engine broke and he had to tow his boat home, minus the lumber.

All come to church and to Sunday school next Sunday. Please be on time for Sunday school, at two o'clock.

GLYCERINE and BARK PREVENT APPENDICITIS

The simple mixture of licentia herb extract, etc., known as Adler's, astonishes Wetaskiwin people. Because Adler's acts on BOTH upper and lower bowels, ONE SPOONFUL relieves almost ANY CASE of constipation, sour stomach or gas. It removes such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. THE INSTANT, easy action of Adler's is astonishing. T. F. Ball, druggist.

PROHIBITION THROUGHOUT THE DOMINION

The retail sale of intoxicants has been abolished throughout Ontario, Manitoba, Saskatchewan, and Alberta. Prohibition has carried its lightning Columbia so that next July alcohol will be unobtainable in bars, clubs or clubs anywhere between the Ottawa river and the tide waters of the Pacific. Two-thirds of the province in Quebec are dry, and from the eastern boundary of Quebec prohibition prevails throughout New Brunswick, Prince Edward Island and Nova Scotia to the Atlantic Coast.

The retail traffic will thus be confined to one-third of the French-Canadian province. In the next two or three years prohibition stands to have a fair trial over most of the country and at the end of that time the people can make their choice for the future. There may be some reaction after the war. The Toronto News says, "It is not yet known whether the 'bar room' as it has been known has disappeared never to return."

## COULD NOT SLEEP Nerves Were So Bad.

To the thousands of people who are tossing on sleepless beds night after night, and whose eyes sleep will not come, Millburn's Heart and Nerve Pills offer the blessing of sound, refreshing slumber, because they restore the equilibrium of the deranged nerve centres, thus restoring strength and vitality to the whole system.

Dr. Arthur McCutcheon, Mt. Pleasant, N.D., writes: "I have been much troubled with my nerves, and could not sleep for hours after I would go to bed. I would toss and turn from one side to the other before I could go to sleep. I tried many things, but nothing seemed to help. I bought a box of Millburn's Heart and Nerve Pills, as they were recommended so highly. I now get to sleep without any trouble; my nerves seem quieted, and when I lie down I go to sleep quickly. Anyone who is bothered with their nerves should keep a box on hand."

Millburn's Heart and Nerve Pills are 30 cents per box, 3 boxes for \$1.45, at all dealers or mailed direct on receipt of price for The T. Millburn Co., Limited, Toronto, Ont.

## MAKING ALL HAPPY

Take a dollar bill and fold it several times each way. Then unfold it and you will find it increases. Keep the increase, but send the bill to the publisher who put you onto this slick scheme, he will advance your subscription one year from date of last payment. Then take a silver dollar and drop it on the sidewalk. Notice the ring it makes. Send the ring to your best girl and the dollar to the printer and everybody will be happy.—B.

A girl of thirteen and a boy of eight years, near Cowichan Lake, B.C., while after horses, were attacked by a cougar. They only had blades to defend themselves with, but finally managed to drive the brute off. The girl's arm was bitten badly as she thrust her arm into the animal's mouth to save the boy. The boy then grabbed the animal by the tail and forced him to release his hold. The boy was practically scalped. The cougar was shot and found to be blind.

## MUDDY, PIMPLY SKIN?

Many people with disfigured complexions never seem to think that they need an occasional cleansing inside as well as outside. Yet expert of this internal cleansing shows itself in spots and sores on the face, as well as in dreadful head aches and biliousness. It is because the liver becomes sluggish, and waste matter accumulates which Nature cannot remove without assistance. The best
